2nd WORKSHOP ON RADIOLOGY CONTRAST REACTION MANAGEMENT & BASIC LIFE SUPPORT TRAINING (BLS)

Date: Sunday, 11 February, 2018

Time: 9:00 am to 5:00 pm

Venue: HRD Centre, 7th floor, Kokilaben Hospital, Andheri (W), Mumbai, India

INTRODUCTION

We are pleased to announce the 2nd Workshop on Radiology Contrast Extravasation and Basic Life Support Training (BLS). This workshop will be useful for Radiology post graduate students and practicing radiologists.

Reactions to contrast media are medical emergencies faced by practicing radiologists. Since reactions are rare, practicing radiologists have little experience and skills to manage these complications. Our intent is to bridge the gap.

The highlight of this workshop is short lectures and interactive sessions. Basic life support training will be provided by an emergency physician.

We also invite 4 presentations of 5 minutes each, from residents / practicing radiologists to share your experience of a contrast reaction and how you managed it. Your contribution shall be acknowledged with a certificate and prize as a token of appreciation. Please send your presentation to sharad.maheshwari@relianceada.com by 4th February, 2018. Selected delegates will be informed by 6th February, 2018.
